Hariom Kumar

8271829986 | **hariomnce@gmail.com** | https://www.linkedin.com/in/hariom-sharma-477154177/

EDUCATION

Nalanda College of Engineering   **Patna|08/2017 - 10/2021**

B-Tech - Computer Science & Engineering

SMRK College | Intermediate   **Samastipur | 05/2015 - 03/2017**

Campus Public School | High School   **Samastipur| 03/2008 - 03/2015**

WORK EXPERIENCE

AHOM Technologies | Java Developer (Springboot)   **Gurugram | 15/09/2022 - Present**

Implemented backend functionality using Springboot and Java, creating robust APIs to handle data retrieval, validation, and manipulation.

Developed interactive using Springboot, ensuring seamless user experiences and efficientnavigation.

Designed and implemented MySql databases, ensuring efficient data storage and retrieval, and utilizing appropriateindexing and querying techniques

Utilized VPS (Virtual Private Server) for server deployment and maintenance, ensuring high availability and security of applications.

Integrated various third-party APIs and services to enhance application functionalities and provide seamless integration with external systems.

Collaborated with cross-functional teams to design and develop scalable and maintainable solutions, ensuring effective communication and timely delivery of projects.

SKILLS

- ✓ Java
- ✓ Springboot
- ✓ Hibernate
- ✓ JPA
- ✓ MySql
- ✓ Maven
- ✓ Git & GitHub

PROJECTS

THINK :- https://thinkprototype.mpstechnologies.com/

At THINK we have Flexible order management for subscriptions & products, I utilized Springboot with JPA in the backend to connect toMySql. Utilized JPA for fetching data from thedatabase. Implemented password encryption using spring security in MySql.
Development and implementation of various component using springboot.

HRMS :- https://hrms.atwpl.com/

I apply Springboot in backend development, utilizing Springboot and Hibernate to interface with MySql for seamless data integration. Implemented password encryption using spring security in MySql.
Development and implementation of various component using springboot.

Created and launched **https://go4wealth.com** innovative financial websites powered by Springboot, Hibernate, and MySql for optimal performance and user experience.
